

MADIHA M. SHAHID

AI / ML Engineer | Generative AI

Karachi, Pakistan | madihashahid212@gmail.com | +92 321 8997716 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Final-year BS Computer Science student at KIET (CGPA 3.6/4.0) with 6+ months of industry experience building and deploying AI systems. Hands-on with Generative AI (LLMs, prompt engineering, structured JSON output, Chain-of-Thought, Gemini API), Google Vertex AI chatbots, computer vision, and full-stack Python apps (Django, React, Streamlit). Actively building a portfolio in RAG, LangChain, and Hugging Face Transformers. Seeking internship or junior roles in Generative AI, AI/ML Engineering, or Applied NLP.

EDUCATION

BS Computer Science - KIET University, Karachi

Expected 2027

CGPA: 3.6 / 4.0

Intermediate (Computer Science) - NCR CET College, Karachi

2021 - 2022

Matriculation - The Educators, Karachi

2020

TECHNICAL SKILLS

Generative AI: LLMs, Prompt Engineering, RAG, LangChain, Hugging Face Transformers, Google Gemini API, Vertex AI, Chain-of-Thought, Structured JSON Output, Embeddings, n8n AI workflows

Machine Learning: PyTorch, TensorFlow Lite, scikit-learn, Pandas, NumPy, Matplotlib, OpenCV, Computer Vision, NLP, Feature Engineering, Model Evaluation

Languages: Python, JavaScript, Java, C#, SQL

Web / Apps: React.js, Django, Node.js, Streamlit, REST APIs, HTML, CSS, Firebase

Databases: MySQL, Microsoft SQL Server

Tools: Git, GitHub, Docker, Jupyter Notebook, VS Code, Postman, Android Studio

WORK EXPERIENCE

Junior AI/ML Developer | Swag Kicks, Karachi

Jan 2026 - Apr 2026

- Built and deployed an AI chatbot on Google Vertex AI, covering conversation design, model integration, and end-to-end testing.
- Trained and evaluated Vertex AI models; used performance metrics to iterate configuration before production release.
- Labeled computer-vision datasets (bounding boxes) and ran pre-deployment tests to catch failure cases.

AI/ML Intern | Swag Kicks, Karachi

Nov 2025 - Dec 2025

- Trained scikit-learn classification models with preprocessing, feature extraction, and benchmark comparisons.
- Integrated model outputs into the product layer using React.js and Node.js REST APIs.

Machine Learning Intern | Elevvo (Remote)

Sep 2025

- Benchmarked ML models on real-world datasets; improved results via EDA, cleaning, and hyperparameter tuning.
- Built preprocessing pipelines for missing values, outliers, and categorical encoding.

PROJECTS

Explain Like I'm a Bot [React](#), [Django](#), [Gemini API](#), [Prompt Engineering](#)

- Full-stack Generative AI app that explains any topic in a chosen persona (Intern, Professor, Journalist, Executive) with browser speech playback.
- Wrote persona system prompts and a Django REST API consumed by a React (Vite) frontend.

Resume to Interview Questions Generator [Streamlit](#), [Gemini](#), [Structured JSON](#)

- LLM app that converts resume text into validated JSON: skills, gaps, interview questions, and difficulty, with schema checks on model output.

Chain-of-Thought + Persona Reasoning [Streamlit](#), [Gemini](#), [Prompt Engineering](#)

- Compared direct answers vs. persona + step-by-step Chain-of-Thought on the same scenarios to study reasoning quality.

Jarvis - AI Voice Assistant [Python](#), [SpeechRecognition](#), [REST APIs](#)

- Voice assistant with NLP intent parsing; pulls live weather/news and runs tasks from spoken commands.

Face Recognition Attendance System [Android](#), [FaceNet](#), [ML Kit](#), [TensorFlow Lite](#)

- Android attendance app with FaceNet embeddings, blink-based anti-spoofing, and Firebase attendance storage.

Loan Approval Prediction [Python](#), [scikit-learn](#), [Pandas](#)

- Random Forest classifier with k-fold cross-validation and an end-to-end feature-engineering pipeline.

CERTIFICATIONS

- Google Cloud / Coursera - Introduction to AI and Machine Learning (Sep 2025)
- Simplilearn SkillUp - Deep Learning for Beginners (Jul 2026)
- Deloitte / Forage - Data Analytics Job Simulation (Jun 2026)
- HackerRank - Python (Basic) (Aug 2025)
